# Add theme and style in SXA

Add new theme by entering just value in "**New theme name**".

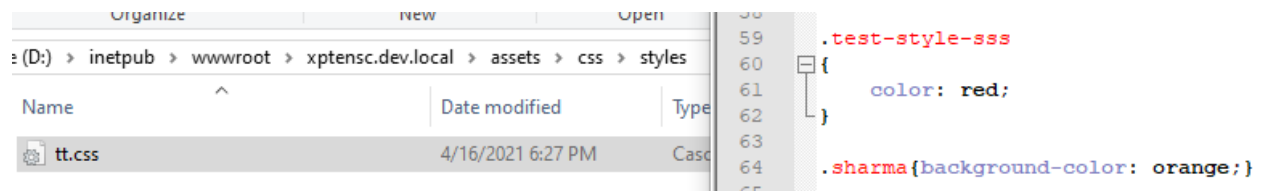

Assign new Theme to default at "/sitecore/content/NokiaTenant/N95/Presentation/Page Designs"

Specify css file path in "Other Properties" field at "/sitecore/content/NokiaTenant/N95/Settings/Site Grouping/N95" as

Where css file is like

.test-style-sss

{

      color: red;

}

.sharma { background-color:orange; }

Add and save below code in "C:\inetpub\wwwroot\xptensc.dev.local\Views\RichText\RichText.cshtml"

@if (!string.IsNullOrEmpty(Sitecore.Context.Site.Properties["mycssfilepath"]))

{

   <link rel="stylesheet" type="text/css" href="@Sitecore.Context.Site.Properties["mycssfilepath"]">

}

Create item at "/sitecore/content/NokiaTenant/N95/Presentation/Styles/Rich Text/My Rich Text" and assign css class name "sharma" as

Item ID:	{2D4FE0E4-4539-4226-B6B3-A6ADA83CF1CA}
Item name:	My Rich Text
Item path:	/sitecore/content/NokiaTenant/N95/Presentation/Styles/Rich Text/My Rich Text
Template:	/sitecore/templates/Foundation/Experience Accelerator/Presentation/Style - {6B8AABEF-D650-46E0-97D0-C0B04F7F016B}
Created from:	Styles, en, 1 - {5EDF676A-2FDD-418A-8C56-CB465EE16E20}
Item owner:	sitecore\admin

Style

Value [shared]:

sharma

Allowed Renderings [shared]:
Edit

- Rich Text (Reusable)
- Rich Text
- Page Content
- Page Content

Open Header or body partial design and change Richtext css class as

Rich Text - N95 (Local)
- ☐ Custom list indicators
- ☐ File Rich Text
- ☑ My Rich Text

Test page in browser.
