# Experience Editor Fields

Editing Experience editor by giving the field name of the Sitecore template in the View.

1. Open the Sitecore Instance.
2. Create a View Rendering.

3. Add the View Rendering to the Item.

4. View Code:

```
@using Sitecore.Mvc
@using Sitecore.Mvc.Presentation
@using Sitecore.Data

@{
    ViewBag.Title = "Section";

}

<br />
<div>Single Line Text: @Html.Sitecore().Field("Title")</div>
<br />
<div>Rich Textbox: @Html.Sitecore().Field("Description")</div>
<br />
<div>DateTime: @Html.Sitecore().Field("Date Of Joining")</div>
<br />
<div>Image Field: @Html.Sitecore().Field("Banner")</div>
<br />
<div>DropList: @Html.Sitecore().Field("Drop List")</div>
```
5. Output
